

MANUFACTURER'S DECLARATION

Translation of original document

For the following products

California Proposition 65, the "Safe Drinking Water and Toxic Enforcement Act of 1986" (CP 65)

We hereby certify that we are well informed about the CP 65 law.

US Federal and Californian State Law, European Union (EU) law, German Federal and State laws are all based on the United Nations Globally Harmonized System (UN GHS), applying UN GHS (Rev.8) (2019) and future amendments. UN GHS classifies hazards and risks of dangerous or hazardous substances and their mixtures.

This results in the US Federal "Toxic Substances Control Act 1976" (TSCA), and in the state law CP 65. The proposition protects California's drinking water sources from being contaminated. With over 1000 chemicals known to cause cancer, birth defects or other reproductive harm ("Proposition 65 Substances"), this law commonly requires the protection of Californians from exposure to substances, as regulated by CP 65.

SAMSON AG produces and markets industrial valves and the related industrial monitoring and control instruments. SAMSON AG does not manufacture or market consumer products. Consumer products are defined as products for the personal use or consumption of the consumer. Therefore, our products are out of scope of this regulation. In general, only properly trained professionals handle, service and scrap such devices.

At the end-of-life phase, dispose of the devices according to your national and local legal requirements. Kindly check out our Product Compliance Department's Homepage covering SAMSON Types and Variants: <https://www.samsongroup.com/en/about-samson/material-compliance/reach-regulation/#c2723>

SAMSON applies the following industrial standard:

– IEC 63000:2016 "Technical documentation for the assessment of electrical and electronic products with respect to the restriction of hazardous substances"
